

## Arctos secretariat meeting 14.09.2023 minutes

- Account for ARCTOS NFR: available now at UiT
  - o Three institutions still need to sign contract – Rolf will contact secretariat members to ask administration to sign
- Revise NFR ARCTOS project to extend to October 2025
- ARCTOS secretary search: anyone we know available? Should ask Ulrike as well)
- New ARCTOS leader: Rolf will resign as leader next year. Paul also indicated that he will step down in the nearer future. Sünnje (leader) and Eva (deputy leader) expressed interest – discussions will follow.
- ARCTOS PhD workshop: Eva/Sünnje: no funding for 2024, but potentially in 2025 with iC3 (discuss with Philipp et al. Nov 10<sup>th</sup>)
- Rolf checks status of Annual Report 2022
- Eva, Paul: new research effort planning: The future of the Arctic Ocean, Akvaplan and UNIS responsible for ecosystem section – decided on related theme for ARCTOSDAYS see below.
  
- ARCTOS days
  - o **Major science theme session:**
    - The future of the Arctic Ocean System and implications for its sustainable use (lead Eva, Paul) with input coming from ECR workshop days (Antonia et al.)
  - o Related science presentations by major ongoing research efforts, funded projects: HAVOC, SUDACO, BREATHE, NPI monitoring, iC3 Center of Excellence, PolarFront (some presentations by involved ECRs encouraged)
  - o Related discussion on how ARCTOS can be involved and contribute (research, training, ECR support in general)
  - o Fun fact session (1-3minute short science presentations about exciting new findings), 2 slides maximum, one slide preferred
  - o ARCTOS PhD student oral presentations session
  - o Poster session
  - o Collect information about ECR and Senior Successes and major changes
  - o Logistics: Rolf needs to discuss with Ulrike how to deal with logistical issues including the purchases for ECR days.
  
- Rolf sends invite ARCTOS days to all today.
